\$304,500 Budgeted for Sewerage System Extension and Increase in Plant Capacity

Grade School Budget Hearing Set For September 13; New School Bus, Bass Clarinet, Bus Tires Bought

A public hearing on a temporary budget for the Antioch Consolidated grade school district will be held at 8 p.m. Tuesday, September 13, the board of education decided at its monthly meeting Tuesday evening.

The budget will be on file at the Antioch building's office for those wishing to study it before the hearing.

September 13 also will be the monthly meeting date of the board instead of the third Tuesday (September 20), the usual time.

Greg and Roger Drije, Louis Nielsen and Barbara and Vincent Casella applications to attend Antioch schools on a tuition basis were approved. The cost will be \$180 a school year for each pupil.

These children live outside the Antioch grade school district.

Antioch Firestone store was awarded the job of furnishing the district with two school bus tires and tubes on his bid of \$138 less \$10 for each recappable old tire.

Burlington Music Mart was given the job of furnishing a bass clarinet on its bid of \$247.50.

Insurance coverage on bodily injury and property damage were increased. Bernard Osmond has the policies.

The board voted to ask for bids of furnishing acoustical tile for the Antioch village school building music room.

Members also decided to purchase an 18-inch power lawn mower for about \$50 for the Oakland school grounds.

Two hundred sixty-five books on history and geography for social studies classes at the Antioch and Oakland buildings will be purchased at a cost of about \$1,200.

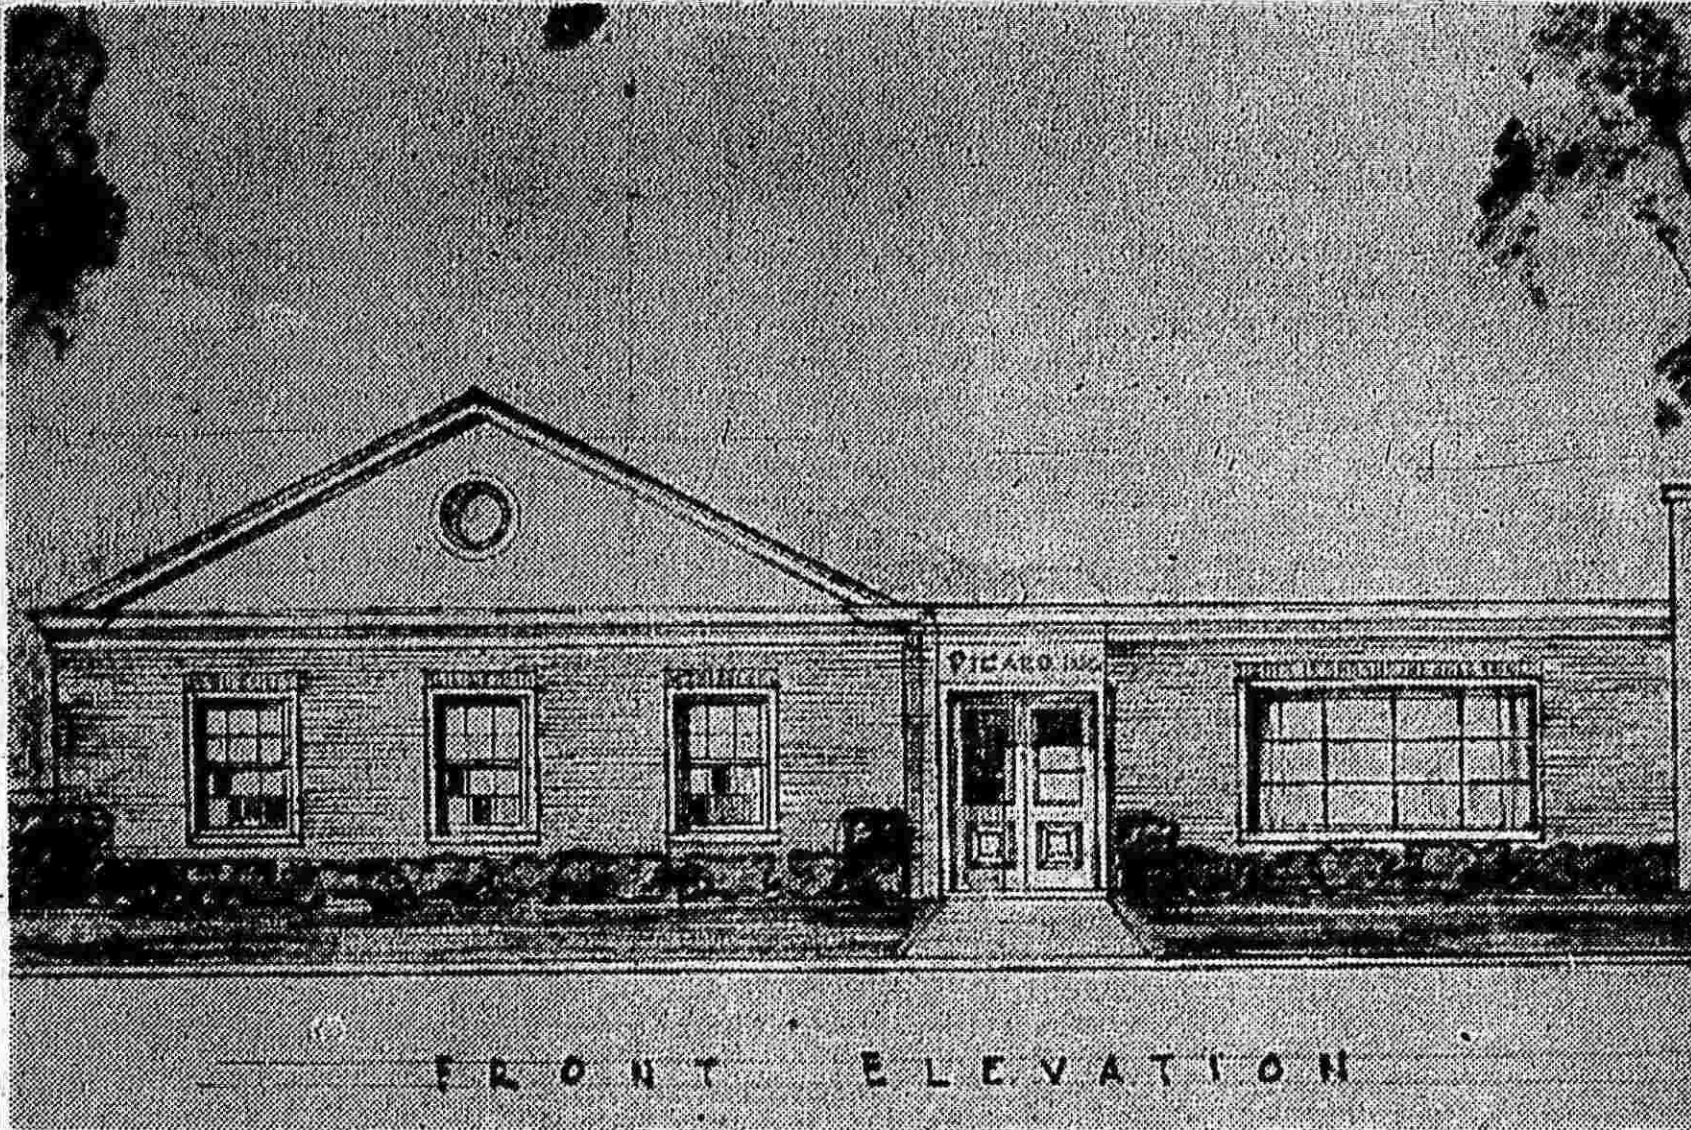

These new volumes for the fourth, seventh and eighth grades will bring the textbook list up to date. They also will replace some books which have been in use for 20 years or more.

Pedersen Brothers was awarded a contract to supply the grade school district with a 66-passenger GMC school bus with a Carpenter body. The cost will be \$6,196, including a trade in on a 1950 Chevrolet bus.

Others submitting bids were from Lyons and Ryan of Antioch and from Olson Implement Company, also of Antioch.

Bus schedules, runs and drivers came in for some discussion.

It was voted to advertise in The Antioch News for a custodian at the Antioch building who also could drive a bus. This advertisement appears this week on the classified page.

PICKARD CHINA COMPANY offices and salesroom will be housed in this addition to the Antioch plant on Coronado Avenue, Austin Pickard Jr. announced last week. Shown here is an architect's conception of how the front of the one-story structure will look from the street. Part of the present decorating buildings is shown at the right. Room for parking will be made available in the area shown at the left. Roy Nordstrom of Fox Lake expected to start work on the project this week. The building will contain about 2,100 square feet of space or about three times as much now available for office space and sales displays. (Antioch News photo)

Trustees Okay Appropriations Above 1960-61

(See Ordinance, Page 9)

Sewerage and water system improvements in the village of Antioch will take up a major portion of the \$738,250 budget for the fiscal year of 1960-61 adopted by the board of trustees last Friday evening.

Budgeting for this work was \$508,500, including \$104,500 for sewer extension work and \$200,000 for enlargement of the sewerage disposal plant.

Land for the extension of the plant has been obtained adjacent to the sewerage disposal unit. This job was considered mandatory before any extension of sewer mains was made.

Oakwood Knolls subdivision was a major proponent of sewer main extension work, as it was said septic tanks in that subdivision are having trouble taking the loads now imposed.

A new lift station to help take care of low spots in the sewerage system would be built at a cost estimated at \$25,000.

Water main extension work under the ordinance adopted last Friday would cost \$59,000.

The \$738,250 budget for 1960-61 was almost \$38,000 higher than the one approved for 1959-60.

Under the various divisions of the budget the administrative department will receive \$5,500, accounts and finance, \$4,750; police \$27,600; public works and buildings, \$23,350; fire department, \$8,250.

Others are health, \$350; legal \$2,200; street, \$58,050; parking meter fund, \$6,500; insurance, \$800; parks and playgrounds maintenance, \$2,000; general contingent fund, \$12,000; social security contributions, \$2,000, and off street parking fund, \$10,000.

The latter includes purchase and/or acquisition of off-street parking property or facilities in the amount of \$2,500, plus \$7,500 for the improvements to off-street parking facilities.

The \$75,450 budgeted for the water sewerage fund would be received through revenue received from water sales and sewer service and other miscellaneous receipts within the sewer and water department.

Bong Air Base Disposal Okayed By House Group

WASHINGTON, D. C.—(Special) Congressman Gerald T. Flynn (D. Wis.) announced Wednesday that the Armed Services committee of the house of representatives had approved disposal of Bong Air Force base through the general services administration.

Chairman Carl Vinson earlier had insisted that the surplus declaration be held up pending further efforts to find some other constructive Federal use for the Base.

Flynn said the committee had instructed the Air Force to prepare and forward appropriate papers declaring Bong Air Force Base "surplus" to its needs.

"During a 30-day waiting period," Flynn said, "the state through the governor's office and the development resources corporation will have an opportunity to make appropriate plans for buying up and taking over Bong base."

"I have made preliminary contact with the general services administration and with the interior department to secure 2,000 acres of Bong base land for conservation purposes in the form of a wildlife refuge or preserve."

"I have conferred with the department of health, education and welfare to secure approximately 300 acres for a school forest with each school in Racine and Kenosha counties participating."

"I have also made certain of obtaining the land needed by the Town of Brighton for school purposes."

Flynn urged purchase of the remaining Bong base property by the state of Wisconsin to insure its eventual development as an industrial park to bring increased employment and added prosperity to southern Wisconsin.

He said he expected Bong Air Base to be turned over to GSA for disposal by August 22, or shortly thereafter.

High School Board, Dittman to Meet With Architects on Building Plans

Principal Albert Dittman and several members of the Antioch Township high school board of education will meet with architects to discuss a possible addition to the present buildings.

The matter was discussed at last Wednesday's meeting of the board. Dittman suggested that possibly another structure 2-stories high that would parallel the present building could be constructed. His idea would be to erect it nearer Main street than the present building.

His suggestions at the board session were not any more than just that—something to discuss with the architect.

The new structure might consist of classrooms with lavatories and such needed rooms as closets, hallways and the like included. This has been suggested by some of those opposing a wholly new high school building.

Changes in the cafeteria, gymnasium, shower rooms, home ec. room and some other parts of the present building might be included in the talks with the architect.

Board members have indicated that it will be necessary to do more than just erect a set of classrooms. Projected student totals at ATHS have indicated there will be enrollments of 705 this coming school year, 776 in 1961-62, 800 in 1962-63, 817 in 1963-64, 853 in 1964-65, 847 in 1965-66, 875 in 1966-67, and 892 in 1967-68.

This is not allowing for new people coming into the high school district, but does allow for a normal 4 per cent drop out in a four-year period.

These figures are based on the number of boys and girls in the

first, second, third, fourth, fifth, sixth, seventh and eighth grades in the district and the number in the freshman, soph and junior classes in the 1959-60 school year.

For instance the 228 first graders in the high school district, the 233

second graders, the 228 third graders and the 240 fourth graders would total 929 as freshmen, sophomores, juniors and seniors in 1967-68.

Allowing for the 4 per cent drop out in that 4-year period, it would be 892.

Grade School Registration Now Being Taken in Village

New families in the Antioch Grade school district No. 34 or families with kindergarten children for the fall term are urged by school officials to register their children at the Antioch Grade school office any weekday between 9 a.m. and 3:30 p.m. until September 1.

All kindergarten and first grade students enrolling in this district for the first time must present birth certificates as proof of age.

Children residing in District No. 34 are eligible to attend kindergarten

Those who will be six on or before Dec. 1, 1960, may be enrolled in first grade.

The kindergarten fee will again be \$7.50 for the school year. This fee covers workbooks, milk, cookies, etc. for the year.

A book rental charge will be made for grades one through eight as follows:

Grades 1 through 4 will pay \$5 and grades 5 through 8 will pay \$6. The above fees will cover rental charges for all books and educational materials used throughout the school year.

The attendance areas will be the same as last year, thus:

DEAR READER News Editorials

'Neither Flood Nor Storm Shall....'

Many hundreds of years ago a man set a precedent. He stopped by the wayside to give first aid to a stranger. And then finding that the man was friendless and alone, he took him to an inn, paid for his keep, and told the host if that amount did not suffice he would settle the bill in full later.

History hasn't wiped out the deed of the Biblical character now known as the Good Samaritan.

Today we still have "Good Samaritans." They aren't called that. They may be policemen, firemen, doctors, nurses or just plain every day folks even as you and I.

But there are people who want to help their fellow beings. One very fine citation is the RESCUE SQUAD.

The RESCUE SQUAD is doing a fine job in Antioch. At the sound of the siren members get together quickly and answer the call as rapidly as possible.

Come storm or fire, accident or fatality—in fact you name it whether it be through several feet of snow or the same amount of water—and in all kinds of weather these people respond to the call for aid.

Good Samaritans? YES, decidedly so, you too can be one. Help the RESCUE SQUAD with your contributions to the fund sponsored by the Antioch Lions club. And also give the RESCUE SQUAD the right of way when it answers a call.

Sunday, August 14, the Antioch Rescue Squad is having open house at its station at Broadway and Orchard. We expect to be there to meet squad members, see their equipment, new trucks, and get better acquainted.

We suggest you do likewise.

Courthouse Notebook—

BY LOU DURKIN

The Republican Party in Lake County kicks off its campaign for the general election on Sunday by wheeling in some of the big guns of the party for the steer roast being presented by the Warren Township Republican Club at the Viking Home in Gurnee.

Durkin

Gov. William G. Stratton is listed as the No. 1 speaker and will be backed up by Con. Marguerite Stitt Church on the speakers platform.

By that time the Republican convention will have run its course and Gov. Stratton may be coming here in a different role, possibly as a candidate for the U. S. Senate.

Stratton's backing of Sen. Everett M. Dirksen for the vice presidential nomination is being interpreted in some corners as a move to create a Senate vacancy into which he could move himself thus avoiding a showdown at the polling places with Otto Kerner, the Democratic nominee for governor.

There have been recurrent rumors that Gov. Stratton would not be in the running for re-election come November.

This, of course, will depend on the action of the convention in picking a running mate for Vice President Nixon.

Waukegan civic and business leaders met with Waukegan Supervisor Augie Cepon and Mayor Robert Sabonjian Saturday to map strategy in the fight to keep the courthouse and county seat on the present courthouse square, and even more important, to push for the construction of a new courthouse and county office building on the historic site.

Essentially the Waukegan leaders feel that the legal and political obstacles to a shift of the county seat are almost insurmountable and they will concentrate their efforts on the construction of a new building to house the many county activities which are being scattered around the city of Waukegan and the county.

Mayor Sabonjian assured the group that the city would take steps to eliminate any parking problem if a survey shows that one exists in the courthouse area.

"We can't put all the cars at the entrance to the courthouse any more than builders of a football stadium can put in nothing but 50 yard seats, but we can make certain that those using the courthouse can park their cars within a reasonable distance of the courthouse," Mayor Sabonjian declared.

Despite the circulation of petitions advocating moving the courthouse chances are few backers of the plan expect it to succeed.

Rather they are hoping to stall any plans for progress in that direction and will use the need for sanitary improvements, new water facilities, and drainage control as arguments against the spending of money for courthouse construction.

State Rep. W. J. Murphy is really in there swinging on the proposal to build a series of dams along the DesPlaines River to control spring flooding, but it's hard to tell if he is opposed to the plan because it is Cook County-inspired or because it is a bad plan.

Murphy is getting as much political mileage as possible out of the normal aversion of Lake County residents to domination by Cook County, but we have a sneaking suspicion that his opposition is mainly for home consumption.

On his past record Rep. Murphy has shown that he can be persuaded to change his stand if he is convinced that a plan, regardless of its origin, will benefit Lake County.

Meanwhile he is getting some attention in the press and keeping people aware that he is still in the state legislature.

It has often been said with good reason that anyone seeking a county office has to start his pitch a couple of years in advance which no doubt prompts the feelers County Purchasing Agent Wesley Koehler is throwing out at this time.

Koehler, who was edged out in his bid for the GOP nomination for County Auditor in April, is seriously considering running for Clerk of the Probate Court if the incumbent Allen J. Nelson decided not to seek re-election.

Koehler feels he was a little tardy in announcing his candidacy for auditor and doesn't want to make the same mistake again.

Voting for Probate Clerk will take place in 1962.

Rescue Squad 'Open House' For Aug. 14

"Open House" will be held at the Antioch Rescue Squad building from 12 noon to 4 p.m. Sunday, August 14, to better acquaint those interested in this organization with its personnel and equipment.

The Antioch Lions Club Rescue Squad fund committee is sending out letters to residents of this area notifying them of the open house and also reminding them that contributions to the fund are welcome.

The letter says, in part: "The new Rescue Squad truck recently purchased is now in operation, fully equipped at an overall cost of \$7,500."

"A major portion of the funds contributed this year will be used to defray the cost of this new equipment which replaced a 1946 obsolete model (truck)."

"As we have stated before, we believe that 'our squad' both as to manpower and equipment is unequalled anywhere and this only made possible by your voluntary contributions."

"So we ask that you be as generous as possible and that you use the enclosed self-addressed, postage free envelope for your contribution payable to the Lions Club Rescue Squad Fund."

Signing the letter is Loren D. Sexauer, chairman of the Lions club committee. The group also includes Edwin J. Sletten as secretary-treasurer; William E. Brook, Edward Kugle, E. Elmer Brook and Dudley Kennedy.

I have written Mrs. Gaston about our move but perhaps she is out of town and did not receive my letter. We sincerely appreciate receiving the Antioch News and wish to thank whomever is responsible for sending it!

Mr. Tuttle was appointed to the First Methodist Church of Wenatchee at our annual conference in June. Wenatchee is the "apple capital of the world" and located in the foothills of the Cascade Mountains. We have a lovely new church building and a fine people to serve.

Please give our greetings to our many friends in Antioch and advise them of our change of address.

Very sincerely,
Mrs. G. Richard Tuttle

Charles E. Larson of Antioch, chief deputy of the Lake County sheriff's office, will attend the 66th Session of the FBI National Academy, Washington, D. C., commencing August 15, Lake County Sheriff Norris Froelich announced Thursday.

Froelich, himself a National Academy graduate, said that he had received formal notification from J. Edgar Hoover, FBI director, advising that application of Larson had been accepted and extending invitation for Larson's attendance at the 12-week training course.

Chief Deputy Larson has been attached to the Lake county sheriff's office since 1946. During his employment there, he has worked as squad man, investigator, polygraph operator (lie box) of which he has gained great recognition.

During World War II, Larson served in the OSS in China, Burma, Indian Theater for 3 years. He resides with his wife and 3 children in Antioch.

J. M. Lopez, special agent in charge of the Chicago FBI office, said today that the 66th session to be attended by Larson will mark the start of the 26th year of the operation of the National Academy.

It was founded by Director Hoover July 29, 1935, and its continuing purpose has been the training of state, municipal and county law enforcement officers as instructors and executives in the field of law enforcement.

Sessions of the Academy are held twice yearly, and are attended by officers from throughout the United States who are selected for attendance from those nominated by heads of their departments.

The 12-week curriculum includes two weeks of specialized training in a subject of the officer's choice.

The course includes topics as police administration and organization, laboratory aids, criminal investigation, firearms training, fingerprint identification, traffic control, and arrests and searches.

Antioch HI Librarian Faces Busy Schedule

Miss Elsa Tyndall, new librarian at Antioch Township high school this coming school year, has been employed to start two weeks earlier than school opening day, September 6, so as to have the library ready for opening day.

Principal Albert Dittman told the high school board at its meeting last Wednesday evening that he was recommending this action "because of the great amount of work to be done in the library before the opening of school."

Her salary on a pro-rated basis would be \$125 per week.

Miss Tyndall succeeds Mrs. Polly Boaz, also an AHS employee, resigned this past spring.

10 to Receive Aid in Speech

Ten or more Antioch Township high school students believed in need of speech correction work will receive help as the result of the high school board of education approving a speech correction program for 1960-61.

Frank Depison, who before he left the local high school staff this past spring had given tests of various kinds, to students, made the estimate.

The board at its meeting last Wednesday approved the speech correctionist program offered by the special education district of Lake county of which AHS is a participant.

About 50 per cent of the \$6,200 instructor's salary will be paid by the state of Illinois.

The rest will be divided between Antioch, Grayslake and Zion-Benton high schools and Kildare, Half Day and Aptakisic-Tripp grade schools. The high school shares will be \$711.11 and that of the grade schools \$355.56 each.

The instructor will spend one day each week in each of the high schools and one half day each week in each of the grade schools, with one half day for paper and book work.

Principal Albert Dittman said he thought the instructor would be at AHS two one-half days each week to make the one full day chartered.

Not a single cracked egg since Chevy took over the route

That '60 Fleetside pickup you see takes whatever kind of road comes along, and makes about 250 stops a day delivering eggs house to house for Mr. Harry Hansen of Missoula, Montana. "With my previous truck," Mr. Hansen writes, "I always had some cracked eggs. Cargo damage always cut into my profits. But the new Chevy eliminated that problem completely. I haven't had one cracked egg with my new truck and I've had up to a ton of eggs in it without any difficulty. . . . I didn't know a truck could ride so nice."

Chevy rides nice, all right; takes good care of fragile cargoes. But that's not even the half of it. Torsion-spring suspension also means longer life for the truck, extra thousands of working miles, because the sheet metal and body components take less of a beating. You can run off-the-road or over back trails at faster safe speeds, too; get in more trips a day, make more money. Those facts are as true of the big Chevrolet heavyweights as they are of the pickups. Any model you name. Get one on your job and you've got the world's most efficient, most economical way to haul any load over any road. Your dealer will be happy to prove that statement any day you say.

◀ "I'm getting close to 20 miles to the gallon," Mr. Hansen states, "and that's on stop-and-go delivery."

50 Antioch and Vicinity Ladies Greet Mrs. Nixon at Reception

EVANSTON — About 50 ladies from Antioch and vicinity were among the estimated 3,500 ladies who swarmed over the lawn and the home of Gen. Charles Dawes in Evanston Tuesday afternoon during a tea in honor of Mrs. Richard Nixon.

One Antioch lady who attended said she and some friends counted 46 from that community and thought probably there were more than that.

The crowd present exceeded expectations as about 2,000 had been expected.

The tea was scheduled to begin at 3 p.m. and last until 5 o'clock, but ladies began arriving shortly after noon to stroll through the home and gardens.

The guest of honor, Mrs. Nixon, was accompanied by Congresswoman Marguerite Stitt Church of the 13th district that includes Antioch, and Mrs. William Stratton, wife of the governor, arrived shortly after 3 p.m.

They greeted the ladies present in the Dawes home living room where TV cameras had been set up. Later the reception was moved out onto the lawn due to the heat.

Among the guests were many prominent women, delegates, wives of governors, government officials and other Republican leaders.

Just to name a few were Mrs. Nelson Rockefeller, wife of the New York governor; Mrs. Mark O. Hatfield, wife of the Oregon governor, and Mrs. Peter Gibson of Michigan.

Wives of cabinet members also were in the receiving line to meet members and guests. The latter included wives of Republican governors, senators and congressmen.

Mrs. Helen Burke of Antioch was among precinct committee women elected in Lake county who served as hostesses for the tea.

Five members from Antioch Township who had been appointed special hostesses for the afternoon to greet distinguished out-of-town guests were:

Mrs. Richard Seyfarth, Mrs. W. C. Petty and Mrs. Edwin Vos, all of Antioch; Mrs. L. E. Murrie of Lake Marie and Mrs. W. J. Murphy of Petite Lake.

Lake Villa Township hostesses were Mrs. Edward Lundgren, Mrs. Douglas Sanders, Mrs. Charles Lowe, Mrs. Dorothea Bartz, Mrs. Harry Cochran and Mrs. James Connell, all of Lake Villa.

Two Lake Villa people living in Newport Township also were listed as hostesses. They were Mrs. Andrew Hovel and Mrs. Skip Olsen.

president of the National Federation of Republican Women.

Four lovely tea tables—two inside the house and two outside—were set up, from which punch, sandwiches and cookies were served. A red, white and blue color scheme was used in the flowers, napkins and decorations.

Mrs. LaVerne Dixon, Lake county chairman, was among those working hard to make the tea such a success.

Promptly at 5 p.m. a secret service man informed Mrs. Nixon and Mrs. Church it was time to leave. They quickly made their way to their car and cheers of the women who had come to greet them, sent them on their way.

Antioch hostesses at the tea were Mesdames Edmund Vos, W. C. Petty, Lloyd Murrie, W. J. Murphy, Richard Seyfarth and Francis Burke.

Practice Safety On Farm, Help Prevent Mishaps

"National Farm Safety Week," July 24-31, is to arouse interest and local participation in solving the farm accident problem.

Needless death and injuries must be reduced if the farm and home are to become a safer place in which to live and work.

Illinois rural safety council estimates are all too accurate. Here is what the council predicts for 1960:

One out of every 17 farm persons will suffer a disabling injury as a result of an accident.

Accidents will kill 48 farmers every single day.

A disabling injury will strike some farm person every 109 seconds during the year.

Total cost of accidents to farm people will be over \$1,000,000 during the next 12 months. Each farm resident's share of that amount is \$40.16 plus 20 days lost time.

These things will happen unless farm residents learn and obey farm safety rules.

Enjoy farm life—practice safety.

Jerry Biaggi at Home After Recent Mishap

By Mrs. Bernice Bernau

LINDENHURST — Jerry Biaggi, 17, of South Thornwood drive is recovering at his home after falling and cutting the tendon in his knee that required 35 stitches.

He has his leg in a cast and will have to wear it for six weeks. It may come off just in time to go to school. Jerry was a patient at Lake Forest hospital from Thursday until Monday.

Jerry is a son of Gene and Marilyn Biaggi.

More than 1,854,000 Illinois school children were provided lunches under the national school lunch and special milk program during the school year 1958-59. This service involved an expenditure of approximately \$41,000,000.

University of Illinois agronomists have released 3,600 bushels of the new Lindarin soybean for seed increase during 1960. Lindarin results from a cross of Lincoln and Mandarin varieties.

During the 1958-1959 Illinois school year nearly 74,000,000 meals were served under the school lunch program, an increase of about 8,000,000 meals over the previous year.

Local Level Government Is Best - - - Schadeberg

Government is best at the local level because it is closest to the problems of society, according to Henry C. Schadeberg, Republican candidate for congress in the first district.

Schadeberg said he believes in a minimum of federal government interference in individual affairs and that a maximum of responsibility should be returned to the individual, the community and the state, in commensurate with the ability of these respective groups to meet their problems.

"I am diametrically opposed to the welfare state," the World War II and Korean veteran stated, "and will work vigorously against any move to further socialize our society by government handouts and government projects which can best be conducted by the individual and by the local state groups."

He stated the federal government must preserve and protect the rights of the individual but in doing so it cannot and must not invade the rights reserved in the constitution for states.

Farmers should not put their hands in the mouths of sick cattle.

Installing Done At High School

Gordon Volling, local electrician, will connect the Antioch Township high school sprinkler system with the building fire alarm system as part of the new fire alarm setup in the building.

The American Automatic Sprinkler company has been making necessary connections for telephone service to the sprinkler equipment so the Antioch fire department will be notified when the sprinkler system "goes off."

This could happen in case of a defect or other trouble with the system, thus helping prevent possible water damage to the structure, as well as when the sprinkler "heads" open to spray water on a fire.

The company will connect the school system through the local Telephone Answering service which in turn notifies the firemen.

Equipment and installation costs by the American firm will be about \$120.

Volling also will install bells in the school cafeteria and on the west side of the building to indicate the end of each lunch period.

The Carey Plumbing company has been asked to install two toilets in the girls' shower-locker room area.

Spring Grove Work Starts

SPRING GROVE—Internal Register company started work in its new manufacturing plant at Spring Grove this week.

The firm moved much of its equipment into the large one-story building at the southwest end of this village just off U. S. Highway 12 last week. Lines also were set up at that time.

People started reporting to the factory to assist in setting up the equipment last week with the result that operations were expected to start this week.

Arnold N. May Builders, Inc., of Richmond constructed the building which has practically no windows. It is about two city-blocks long and about a city-block wide.

Arnold N. May, president of the Builders, said piers for the elevated tank have been completed and Chicago Bridge and Iron company brought material to the site for erection of the 200,000 gallon tank.

This tank will be used for the new building's fire protection sprinkler system as well as for a domestic water supply.

May said he hopes to set up a utility sometime in the future to supply water to the Spring Grove area.

John C. Brogan Gets Promotion

John C. Brogan, of 334 Sheridan road, Winnetka, a graduate of Antioch high school, recently was promoted to the rank of brigadier general in the army reserve.

He has been assistant divisional commander of the army's 85th division at Chicago.

Brogan has a total of 24 years of service in the army reserve. A graduate of the University of Illinois, he is executive vice president of the R. H. Gore company in Chicago.

He received the bronze star, air medal and the Croix de Guerre during World War II when he served with the 71st field artillery brigade.

Brogan, who is also a director of the Gore company, an insurance firm, is also active in the Illinois National Guard. He is director of Chicago Helicopter Airways, Inc., and of insurance organizations.

The Chicago businessman is a son of Mr. and Mrs. John Brogan of 1014 Spafford street, Antioch. He graduated from AHS in 1932 and from the University of Illinois in 1936.

Wrestling, Golf Added to AHS Sports Program in 1960-61 Year

Two matters of interest to sports-minded people in the Antioch vicinity were approved at a meeting of the Antioch Township high school board of education at last week's meeting.

The board approved golf as a high school sport for the 1960-61 school year and it also okayed purchase of a wrestling mat.

The latter action also indicated that wrestling would be a sport during the coming school year.

Relative to golf, the board had learned earlier that there was quite a lot of interest among AHS boys in this sport. Board members also learned that the Spring Valley Country club could be used at no cost.

Juniors indicating an interest in golf during a sport survey last May included Bernie Anderson, Dave Jamison, Charles Bruhn, Mike Greas, Wayne Barker, Brian Palenske, Ron Vejvoda, Bob Randall and Paul Kadlec.

Others were Larry Murrie, John Hedberg, Reggie Patterson, Gayle Augsburg and Don Goodrich. All these named will be seniors this fall.

Sophomores (in May) who were interested included David Blehl, Ken Anderson, Bill Brendel, George Badame and Ray Rathman.

Freshmen (sophomores this fall) included Mike Zelen, Dave Cardiff, Al Gruidl, Mike Skubal, Larry Jesse, Bill Kaub, Karl Steinau, Jim Dupre, John Hallwas, Jack Mazzuca, Walt Delaney.

Others were John Siedlman, Mike Solar, George Hoffman, Tom Erlanborn, Dione Rathbone, Terry Erlanborn, Dennis Apostolou and Bob Ritchke.

Those who were eighth graders in the past school year and will be frosh at AHS this fall who seemed interested were Carmen Manzano, John Lear, Les Miller, Jerry Berke and Bob Radke.

In the same sports survey, 18 eighth graders, 8 freshmen, 17 sophs and 11 juniors for a total of 54 were interested in a wrestling program.

It was emphasized at the board meeting that there may be others interested in these sports. Undoubtedly not all the boys were contacted in the survey.

John Reimer Winner In Waukegan Racing

WAUKEGAN — Young Milwaukee John Reimer stopped a hometown running mate, Greg Krieger from being the only driver able to set the fast qualifying time at the Waukegan Speedway this season.

He bested Krueger's time by 3/100th of a second and went on to place first in the 25 lap main event for the modified stocks with an average speed of 49.59 mph last Sunday.

In nine previous weeks, Krieger has set the fast time of the night, eight times and on the other, no time trials were run because of rainy weather.

Reimer's speed in qualifying was measured at 52.13 mph.

The action packed semi-race saw three starts as on lap one, Ralph Patty, Zion, was driven into the concrete retainer wall on the backstretch by Glen Eichmann, Lake Zurich.

Seconds later, Swede Johnson, Waukegan, piled into the stalled cars and all three were forced from the event.

On the second start, all cars got one lap in, but on lap two, Frank Hough, Zion, ran into leader Jack Norman, Waukegan, and climbed up onto Norman's machine, nearly rolling over. Neither driver was injured and after the third start, Eddie Irving, Waukegan, went on for the win, narrowly beating out Highland Park's driving ace, Erick Johnson.

An Illinois resident's hunting license costs \$3 plus a 25-cent clerk fee, regardless of the applicant's age, according to Director Glen D. Palmer of the state department of conservation.

State law provides for a 50-cent license for fishermen 65 years or older, but no such provision has been made for hunters 65 years or older, Palmer said.

Phone Antioch 1837

The Auxiliary of Troop 86 will have an ice cream social on the grounds of the Channel Lake school, Saturday, July 30.

The affair will start at 12 noon, and continue through the afternoon and evening.

Refreshments will be served, including ice cream and cake. There will be a grab bag. In the evening a dance floor will be set up in the school yard, where there will be dancing to the juke box.

Anyone wishing to donate a cake is asked to leave it at the school house Saturday morning.

The Channel Lake school board has interviewed an applicant for the position of principal and teacher of the eighth grade at its regular meeting, but no definite commitment was made at that time.

The board discussed the possibility of presenting a referendum to the voters by September or October for funds to build a new gym.

The matter was tabled until more information could be gathered as to the probable cost.

Sad renditions of "Auld Lang Syne" and "My Buddy" were the order of the day as Jack Lawrence, widely known as the most eligible and elusive young bachelor of Chañel Lake, prepared to leave on July 27 for two years of army service.

Jack lives with his aunt and uncle, Mr. and Mrs. Robert Donald of Prospect avenue.

A party in his honor was held at the Hugo Swanson home on July

23, preceded by dinner at Joe and Helen's at Loon Lake. Jack was presented with a transistor radio by his many friends as a parting gift. Wonder if Klass's Bowling team can win its trophy again next year without Jack's help?

An old familiar landmark on Lake avenue, Channel Lake, disappeared last week when the silo on top of the hill across from the Runyard home was demolished. The silo was knocked down so that Sycamore Road could be widened.

Sycamore, along with other roads in Sex's Subdivision, is being widened and improved before being taken over by the township.

The silo was erected in 1922, when the land it was on was part of the Kriebel farm.

Mr. and Mrs. Dale Bartley spent a week in Austin, Minn., recently, visiting relatives. On the way home they stopped at Devil's Lake, Wis., where they were joined by their son, Earl.
